ROLLINS ALUMNI RECORD

No. 1 & 2

JANUARY - FEBRUARY, 1962

VOL. XXXIX

ANIMATED MAGAZINE VIEWS FUTURE

Praise for Rollins College in its efforts to meet the needs of "the gateway to the moon" dominated its famous Animated Magazine Sunday, Feb. 25.

In a tribute to the vitality of Rollins, Gov. Farris Bryant, Sen. George Smathers, NASA Administrator Robert C. Seamans, Jr., and members of the faculty noted the nearly astonishing impact the Winter Park College is making on the Central Florida area.

**Dr. Robert C. Seamans,
Doctor of Science**

Bryant said Rollins was without a peer in the south in cooperating in space age education programs.

Sen. George Smathers said that a great forward step had been taken by Rollins in subscribing funds for the establishment of the first institute for research in the space sciences in Florida.

"What Rollins College has done today will not only affect the future of Florida, but the nation and the world as well," he said.

Smathers, given an honorary Dr. of Humanities degree in 1955 from the college, termed himself a graduate of Rollins "once removed".

The senator called for a renaissance of education in the state and nation to meet the challenge of Soviet Russia. He reported that travelers from Russia told of libraries operating 24 hours a day and students impatient for knowledge and education.

He said Americans must meet this challenge by intensifying and broadening the training of its young people.

Robert Seamans, associate administrator of NASA, came to the magazine from Cape Canaveral, where he met with astronaut John Glenn and other officials of the project Mercury program.

He said results of the meetings and examination of data gathered during the orbital flight would be available to the public in four or five weeks.

CONTRIBUTION

Governor Farris Bryant inserted a news "scoop" into the makeup of the 1962 Animated Magazine when he announced that the Citizens National Bank of Orlando had decided to contribute one per cent of its net profits before taxes to Rollins College. He praised the gift and urged other businesses throughout the state to follow the lead set by the bank in supporting private education. He also commented favorably on Rollins' offer of space and administrative help to the off-campus engineers degree program now authorized in Florida. Clarence M. Gay, president of the Citizens National Bank, is a trustee of the College and a member of the executive committee of the board.

Governor Bryant, Doctor of Laws

Cooperation of the Govt., industry, and private and public colleges was necessary, Seamans said, for the shot at Canaveral to come off successfully.

"Rollins' Space Institute," Seamans continued, "will have the opportunity to participate in one of the greatest adventures of all time."

He said that the various space programs now under way, Apollo, Gemini among others, would enable man to cast off the cloak of the atmosphere and discover the mystery of where man and the universe came from.

An innovation in the magazine was introduced this year. A 'Rollins Insert' was made by members of the faculty. They gave their own personal ideas on the future of Rollins.

Dr. Dan A. Thomas, director of Rollins' graduate program in physics, noted that 90 pct. of man's scientific knowledge has been gained in the lifetime of many persons living today.

Thus, he said, we must train our young people to meet problems which do not even exist yet today. He commented that men now have control of the power to destroy themselves. We need more knowledge and inspiration to control this power.

Rollins can't look to other schools for solutions to today's problems, he said, but must find the way itself.

Dr. Dudley E. DeGroot, of Rollins department of sociology and anthropology, observed that three-fourths of mankind live in the neolithic age of stone. He called for the man who lives in the world of atoms to aid these stone age persons — who live both here at home and abroad—in order to further the goals of man.

A liberal arts college like Rollins best promotes the skills and abilities of the young, he said. He warned that unless proper training and imagination is given the young members of the atom society, all society will be destroyed by the stone-age men.

The Rollins Decoration of Honor was given to William Roy Shelton, Jr. '48 by Pres. Hugh F. McKean for his accomplishments in the field of writing and journalism. Animated Magazine publisher Edwin P. Granberry presented the Time Magazine writer to the president for the award.

Mary Gadway conducted the Rollins Men's Choir in the musical page of the magazine. This was another innovation in the famous series originated by Pres. Hamilton Holt, late president of Rollins.

**Senator Smathers,
Hamilton Holt Medal**

Dr. Bruce B. Wavell, mathematician, developer of a new system of logic, and member of Rollins philosophy department, said that while in the next few years, Rollins will tend to larger enrollment and facilities, in the next five or six years the school will become part of a complex of institutions of higher learning.

CONVOCATION SPEAKER

His Excellency Koichiro Asakai, Ambassador Extraordinary and Plenipotentiary of Japan, honored guest of the College, was the Founders Week Convocation speaker. He became an honorary Alumnus when President McKean presented him an honorary Doctor of Laws degree.

Japan's national existence and her strategic position in the Free World hangs in the balance in the trade issue, Koichiro Asakai, Ambassador of Japan, said here Monday, Feb. 26.

Restriction of Japanese imports by segments of United States industry creates the major problem in the country's relations today, Ambassador Asakai revealed at the Founders Week Convocation.

Population pressure, he said, demands that Japan's national economy grows.

"To support this expansion, Japan must import additional quantities of many industrial raw materials, capital goods and advanced technology. We can pay for this only by expanding our exports."

Asakai indicated that from recent experience, it seems the economic problems that exist between Japan and the United States can be solved if they are not ignored or allowed to grow unnecessarily large and bitter.

For the United States, he explained, Japan is not a small, insignificant country. It is the only nation, he added, in East Asia, which is capable of developing sufficient political and economic, if not military power, to serve as a counter-balance to Communism in Asia.

Ambassador Asakai predicted then that Japan and the United States have entered upon a new century of rela-

tions, in which their interests will coincide to an even greater extent.

He was awarded an honorary Doctor of Laws degree for his dedication "to advancing the cause of freedom for the individual everywhere."

Florida's Governor Farris Bryant, Senator George Smathers and NASA administrator Robert C. Seamans, Jr.—speakers on Rollins' famous Animated Magazine Sunday—also received honors at the convocation.

An honorary Doctor of Laws degree was conferred on Gov. Bryant for "willingly exchanging the quiet pleasure of private life for the worrisome responsibilities of public service."

Sen. Smathers, who received the Doctor of Humanities degree from Rollins in 1955, was awarded the Hamilton Holt Medal because he brought distinction to Florida through his statesmanship.

Seamans received the honorary Doctor of Science degree for his skillful and imaginative administration in helping the United States close the space probe gap with Russia.

A special citation was also presented to G. G. Ware, president of the First National Bank in Leesburg. The Algernon Sydney Sullivan Award was bestowed upon him for "the willing way he lent his talents, energies, and imagination to make the common life of Central Florida so good."

REUNION COMMITTEE

Plans and program for the 1962 Reunion Weekend are nearing completion and committees have been named for the various activities for the three days of Alumni festivities on Campus April 27, 28, 29.

President McKean has announced that William Shelton '48 will be the Convocation speaker Sunday, April 29. Bill is a correspondent with Time-Life news service and presently is working out of the Chicago office of the two weekly publications.

Sara (Harbottle) Howden '35, will be mistress of ceremonies at the Reunion Dinner Saturday night, April 28.

Gertrude (Ward) Barnum '28, Nancy (Rolfing) Bradford '35 and George Hines '36, co-chairmen for the Reunion have announced the following committee members: Cathie (Bailey) Coleman '38 and Rebecca (Coleman) Wilson '34, Registration; Bob MacHardy '55, baseball game; Joan Abendroth '59 and Mary Ann Colado '57, picnic.

Class reunion parties: Wilhelmina (Freeman) Greene '27, 1897 to 1927; Mary (Howard) Scudder, Class of '32; Margaret (LeFevre) McJunkins, class of 1937; Edith (Scott) Justice, class of 1942; Mary Geo (Hill) Lesperance, class of 1947; Betty Lou (Kepler) James, 1952; Bob Brown, 1957.

Dr. Fred Ensminger is in charge of the Gay 90s program and Katharine (Lewis) Lehman '27 in charge of the Saturday luncheon meeting.

Bill Gordon '51, alumni student softball game; Ina Mae (Heath '43) and Quentin Bittle '44, Reunion dinner; Central Florida Club, Bill Gooch '50 chairman, Reunion dance; Dickie (Dickson) Colado '27, secretaries workshop; Bob Hutchinson '18, Jean (Wagner '25) and Earle Shannon '20 will be in charge of the Sunday luncheon for all graduates and former students who attended Rollins between 1900 and 1925.

Mary Ann Colado '57 will be in charge of arrangements for the President's Reception which will follow the Alumni Convocation Sunday morning, April 29.

The completed program with time and place for all events and **RESERVATION BLANKS** will be mailed to all Alumni of Rollins in plenty of time for plans to be made and reservations returned to Alumni House.

(With the interest, abilities and enthusiasm of these committee members you are assured of a grand weekend. Ed.)

SALARY GRANT

A \$2,000 unrestricted grant by Esso Education Foundation has been made to Rollins. It will be used to strengthen teaching salaries President McKean has announced. The EEF was founded in 1955 by Standard Oil Company and has granted \$11,334,000 in aid to education since its founding.

SPACE RESEARCH

Rollins College has presented a space science research institute to Central Florida and its growing space industries.

The institute will be housed in Andersen Hall, the former Coffey residence on North Ivanhoe Boulevard in Orlando. Rollins President Hugh F. McKean announced at Founders Week Dinner. Andersen Hall was given to the college by Martin Andersen, publisher of the Orlando daily newspapers.

McKean said the core of the staff will be four of the country's leading scientists who will devote their time to basic research. This, in the opinion of leaders in the field, is the kind urgently needed.

Other scientists will be added as research contracts are obtained, Rollins president indicated.

The permanent staff will be aided in its research by a limited number of graduate students working for the doctoral degree in space science.

Among those consulted by college officials on plans for the institute were: Dr. Wernher von Braun, director of the National Aeronautics and Space Administration (NASA); Dr. Edward Teller, one of the world's great physicists and authorities on space; and Lt. Gen. Bernard Schriever, chief of the Air Force's ballistics division.

Teller, Schriever, and von Braun sent telegrams of congratulations to the college on its momentous decision.

McKean told the assembly of diplomats, scientists, scholars and college patrons that "sufficient funds have been subscribed to launch the institute, the first objective of a new 'master plan' adopted by Rollins trustees to advance the arts and sciences program at Rollins."

"The new institute for space science will have only one limitation, the extent to which Orlando and Central Florida will support it," cautioned McKean. "With sufficient funds it will be one of the leading research centers of the world."

McKean announced that the "trustees would be 'especially pleased' if the new research institute's work could contribute in any way at all to the Nova project and the other projects our country has to fly man to the stars."

"The trustees are also vitally interested in furthering the role of Orlando and Central Florida as the center of space developments and as the 'gateway to the moon.' They are confident," he said, "that the new research institute will help create the intellectual climate sought by the most desirable kind of industries."

"The new research institute will offer the people of Orlando and Central Florida an opportunity to assist in our country's space probes, as well as to benefit from them," McKean noted.

His announcement at the Founders Week Dinner revealed a carefully thought-out plan for Founders Week. The theme of the Animated Magazine was, "What Lies Ahead?"

PROMINENT SQUARE DANCERS

Governor Farris Bryant of Florida and Ambassador Asakai from Japan take an active part in the All College Square dance in the Student Union Patio following the picnic Sunday evening on the Horseshoe. Dancing with Governor Bryant is freshman class vice president Carey Howard.

WHO'S WHO ON ANIMATED MAGAZINE

Robert C. Seamans, Jr.

Responsible for the general management of the National Aeronautics and Space Administration's operations, Dr. Seamans occupies the top career post at NASA. Previous to this appointment, he was chief engineer of the Radio Corporation of America's Missile Electronics and Controls Division at Burlington, Mass. He received his Ph.D. degree from Massachusetts Institute of Technology, where he held teaching and management positions from 1941-1955.

Bruce B. Wavell

Developer of a new system of logic, Dr. Wavell strengthened both the Mathematics and Philosophy Departments when he came to Rollins in 1959. In mathematics, he introduced undergraduate courses and directed the 1961 Rollins Math Summer School. Although he now devotes his teaching to philosophy, Dr. Wavell will direct the second Math School this summer. Born in England, he received his Ph.D. degree from London University.

Herbert E. Hellwege

A member of Rollins' growing Science Department, Dr. Hellwege received his Ph.D. degree from the University of Hamburg. His doctoral thesis, *Applied Mineralogy*, was published in Germany. He has also published a work on the development of a new spectrochemical method in geochemical research. A consultant for Radiation, Inc., Dr. Hellwege has been at Rollins since 1954. Previously, he was a chemist with Food Research Corporation in New York.

Dan A. Thomas

Director of Rollins Graduate Program in Physics, Dr. Thomas also teaches, writes professional articles, conducts research, and continues his own scientific study. Listed in *American Men of Science*, he has been

teaching at Rollins for 10 years. Dr. Thomas has advanced his own studies the last four summers at the University of California, Georgetown University, University of Tennessee, and Stanford University. He holds his Ph.D. degree from Vanderbilt Univ.

Dudley E. DeGroot

One of Rollins' finest examples of the faculty member who serves his community, Dr. DeGroot is mayor of Maitland, contributes to numerous civic groups, and as a lieutenant in the U. S. Navy is in charge of the Naval Institute Unit in Orlando. He received his Ph.D. degree from Ohio State University. In his fourth year at Rollins, Dr. DeGroot also writes articles for professional publications.

George A. Smathers

Recognized as one of the most influential Democrats in the country, Sen. Smathers has been in the U. S. Senate since 1950. Previously, he served two terms in the House of Representatives. Sen. Smathers has been closely associated with efforts to better relationships between the United States and Latin America. In 1961, he was elected Secretary of the Democratic Conference, serving as second assistant floor leader to Majority Leader Mike Mansfield and the Senate Majority Whip Hubert Humphrey.

Farris Bryant

Co-author of *Government and Politics in Florida*, Gov. Bryant has been active in many state projects and has received many awards during his career. He is the only Floridian to be twice named by the Florida Junior Chamber of Commerce as one of the state's five outstanding young men. During five terms in the state House of Representatives, his major programs included the improvement of Florida's school system and junior college development.

SHAKESPEAREANA

Large crowd gathered at Strong Hall patio enjoys songs, scenes and soliloquies presented by the Shakespeare class of Nina Oliver Dean seen on steps in background. Shakespeareana has long been a feature of Founders Week.

ENGINEERING SCHOOL

Rollins may host a new graduate branch of the University of Florida School of Engineering next September.

The announcement was made recently to the Central Florida Development Committee by Dr. Myron R. Blee, director of the Florida Institute of Continuing University Study, and Dean Joseph Weil of the College of Engineering at the University of Florida.

President McKean has offered sections of the Park Avenue Elementary School, recently acquired by the College, to the Institute for the engineering school. Administrative help and registration aid also were offered.

The proposed engineering school is part of a graduate engineering program planned for Florida. Demand for technical schools in Florida is growing to meet the increasing number of engineers required by the state's industrial expansion.

Dr. Blee said that the institute is seriously considering the offer. The facilities offered by Rollins at no charge to the program would alleviate building expenses, he said.

RECORDS

A gift of 60 long playing Columbia Masterworks records has been given to Mills Memorial Library by Columbia Records of New York City. The collection, mostly classical music performed by the world's leading artists, has been catalogued and placed in the records department.

ANIMAG VIEWS FUTURE

(Continued from page 1)

Then it will probably become necessary for university status to come to Rollins, he said. While many faculty members may lament the passing of the small intimate class and school, he continued, a good solution to the problem would be a personalized university that would be integrated at the administrative level but separate in identity of its departments, social life, faculty heads and teachers.

Each division of the college could have sports teams, chapels, fraternities and architecture, he said, while sharing labs, libraries and other major complexes.

He said the Rollins plan, as he foresees it "might make a fine college even better."

Dr. Herbert E. Hellwege, a scientist, consultant, and research man, noted that bold originality in deed and thought is necessary to give the United States the help it needs at this time in the space age.

He remarked that the new plans and methods employed at Rollins, together with the flexibility of the institution, made it an outstanding place for development of minds that will "not allow standard responses" to questions of importance.

"If we do not nourish the curiosity of youth," he said, "we cannot expect to survive."

BOOK-A-YEAR

Actress Greer Garson, an honorary alumna of Rollins, has endowed her third membership in the Book-A-Year Club in honor of her mother, Nina S. Garson.

LIBERAL ARTS BASIC

The decision to start a space program at Rollins will not alter the college's basic liberal arts foundation, President McKean has announced. Instead he said: "The Humanities — philosophy, history, literature, art and music are related to research in space and science since they lead to the development of man. I see the humanities as the most effective way of bringing man to higher levels. We must not only advance in technology, we must advance in goodness if we are worthy of the stars."

SCIENTIFIC RESEARCH PROJECTS

Spectroscopic study of electrical charge distribution in nuclei of atoms: directed by John S. Ross, Associate Professor of Physics, with student assistants. Supported by the National Science Foundation.

Chemical research in the field of hydantoin aldehydes to produce compounds which may lead to a treatment of cancer: directed by Dr. Donald Carroll, Professor of Chemistry, with student assistants. Supported by National Cancer Institute.

Research on thermo-dynamics of solvent extractions of metal chelates: directed by Dr. Herbert Hellwege, Associate Professor of Chemistry, with student assistants.

Theoretical investigations of flexure waves in solids: directed by Dr. Dan Thomas, Professor of Physics. Supported by the U. S. Navy Underwater Sound Reference Laboratory.

Research on structural geology and stratigraphy in Florida: directed by Dr. Donald Lovejoy, Assistant Professor of Geology.

DR. BRADLEY'S HISTORY

Dr. U. T. Bradley, long time Crew coach at Rollins, has written a short history of the Dad Vail Rowing Association, "The Dad Vail Story". The association has printed 2,000 copies and Alumni oarsmen may obtain copies by sending checks (\$1.50 each) made out to the Dad Vail Rowing Association, to Dr. Bradley. Profits will be devoted to the promotion of rowing.

N. Y. CREW RACE

Rollins Alumni living in New York can see the Rollins crewmen in action when they race the Columbia crew April 7. The finish will be at 165th Street and Harlem River. There will be an open house at the Columbia Boat House, Baker Field, after the race.

McKEANS DANCE ON THE PATIO

President and Mrs. Hugh McKean take an active part in the Square Dance held following the All College picnic Sunday night of Founders Week. The picnic and square dance were innovations introduced at the Founders Week celebration this year.

CLASSIFIED INFORMATION

'08 Eunice Baldwin McIntosh writes that their family now numbers 53, including a great-granddaughter about 10 months old on Hudson Bay, 200 miles north of Churchill, and 100 miles north of the tree line, with a temperature of 40 degrees below zero!

'11 SECRETARY: Mary L. Branham, 126 Lucerne Circle, Orlando, Fla.

Friends and classmates will join in sympathy to **Billy Beardall**, whose wife, Shadie Hamer Beardall, died in Orlando February 16, after a long illness.

'15 Katherine (Doggett) Grisset and her husband, Finley, along with others who had served in various mission fields, received a Citation from the Board of Foreign Missions (Presbyterian) on January 20, in New York City. Katherine and her husband make their home in DeLand, Fla.

'18 SECRETARY: Anne C. Stone, 1808 Stonehurst Road, Winter Park, Fla.

In January **Sara Yancey Belknap's** "Guide To The Performing Arts 1960" was published by Scarecrow Press, New York, and in Feb. "Guide to Dance Periodicals 1959, 1960" was sent to the publisher. A very flattering review of one of her 1961 books by George Freedley, head of the Theatre Division of the New York Public Library, appeared recently in a New York paper beginning "The established bibliographer, S. Yancey Belknap, has . . ." "I did not expect to be 'established' ever!" says Sara.

'23 SECRETARY: Ray Greene, 242 Chase Ave., Winter Park, Fla.

Ephraim Conway, who has served for five years as pastor of the Methodist Church at Hernando, Fla., officiated at the marriage ceremony of his son, John Turner Conway, in late January. John and Linda Rogers were married in the North Methodist Church of Sarasota. Both are students at Fla. State Univ., where John is a senior, majoring in math, and Linda an art education major in her junior year. Ephraim's daughter, Carolyn, is a senior at Citrus High School in Inverness and hopes to enter nurses training where she will combine a B.S. degree with a degree in nursing.

'27 SECRETARY: Katharine Lewis Lehman (Mrs. R. J.) 419 N. Interlachen, Winter Park, Florida.

Reunion April 27, 28, 29.

Les Taylor says "As owner of THE SHOW SHOP Summer Theatre new plans are underway for a big summer. New manager and producer. Still interested in hobby of antique autos and recently was made director of the Antique Auto Club of America and the Veteran Motor Car Club of America (Connecticut Valley Region). Also two wonderful grandchildren!"

'28 Claude Couch continues as Asst. Principal in charge of student personnel at the Bridgeton Senior High School, and was elected to the Cumberland County Board of Freeholders in 1961. His current address is Rt. 1, Bridgeton, N. J.

'30 SECRETARY: Clara Adolfs, Rollins College, Winter Park, Florida.

Boots Weston Tuttle says she is still writing poetry, and won the Philip Wylie Award at the Univ. of Miami last year and the annual award of the Laramore-Rader Poetry Group in Miami for the best poem read at their monthly meetings during 1961. "My spare time is still spent fishing and baby-sitting my two grandsons—when there is any—spare time, I mean!" says Boots.

We are sorry to report that word has just come of the death of **Genevieve Smith** (Mrs. Lewis DeMar) in February of 1960.

Flora Furen Carmichael spent a couple of weeks in Orlando during February but didn't make it over to the campus because a flu bug caught her.

And in January **Cloyde Russell** paid us a visit. He and **Fleet Peeples** had a good old bull session!

We understand **Aurora McKay** has moved into a new apartment at 2913 Bayshore Court, Tampa 11, Fla.

Like everyone else, **Sarah Huey Lewis** is still rushed. Now she is chairman of Women's Participation in the Diamond Jubilee of Bessemer.

It was wonderful to see **Mazzie Wilson** a short time ago. She is still slim and trim and very distinguished looking with her lovely gray hair.

Come on, ye Classmates, and give out with news. It may not seem exciting to you, but the rest of us would like to know what you are interested in and doing.

'31 SECRETARY: Jewel Lewter, 1009 N. Bumby Ave., Orlando, Florida.

Marjorie Rushmore O'Hara (Mrs. Almerin) writes that their younger son, A. C. Jr., has been with IBM for the past two years in their Kingston, N. Y. plant. Buzz is a Union College graduate in E.E.—computers his specialty. In late March he and his wife Nancy will be moving to Ft. Lauderdale, Fla., where he will be in the new IBM research division.

Lois Boutwell Bernstein (Mrs. Joseph) writes that they are delighted to have daughter Linda at Rollins, where she is very happy. Their second daughter, Sylvia, is a sophomore at Sophie Newcomb and doing nicely. The other two teen-agers are still at home and attending school there.

'32 SECRETARY: Lucille Tolson Moore, (Mrs. Wm. S.) 4555 S.W. 2nd St., Miami 44, Florida.

Reunion, April 27, 28, 29

Friends and classmates will join in sympathy to **Manly Duckworth**, whose mother, Mrs. Ethel Campbell Duckworth, died in Orlando on January 31 after a long illness. Mrs. Duckworth, a long-time resident of Orlando, was graduated from the old Orlando High School in 1892 and was the last surviving member of the school's first graduating class.

Note: Our percentage of graduates with known addresses is much higher than the national average.

ALUMNI FUND

The present method of Alumni Support (the Rollins Alumni Fund) was reactivated in the fall of 1955.

PARTICIPATION

During the six year period since 1955 participation has been:

Graduates	40.33%
Non graduates (approximate)	10.00%

1960-61 Alumni contributions to the College from all sources and for all purposes: \$135,807.17

TRUSTEES

There are three Alumni Trustees on the College Board who are official Alumni representatives. One is nominated to the Board each year for a three-year term. Now serving are:

Paul Thoren '17	Term expires 1962
Frank Williamson '48	Term expires 1963
Robert Robertson '34	Term expires 1964

PUBLICATIONS

The Rollins Alumni Record is mailed to all graduates and former students monthly October through June each year. It contains general news of the College, alumni activities and class notes and information.

REUNIONS

Five Annual Alumni Reunions have been held since the present system was established in 1957. Anniversary classes (5-10-15-20) are guests of honor each year. All graduates and former students are invited and urged to return to the Campus for the three-day celebration each year which is held on the Friday, Saturday and Sunday nearest April 28, the date in 1885, when the College was granted its charter from the State of Florida. Dates for the 1962 Reunion are April 27-28-29.

ALUMNI-COLLEGE RELATIONS

The relations between the College and Rollins Alumni Inc., have never been better. Full cooperation is accorded by both in all phases of Alumni-College efforts.

ROLLINS ALUMNI INCORPORATED

Articles of incorporation were granted to Rollins Alumni Inc., in 1953. The affairs of Rollins Alumni Inc., are guided by a Board of Directors, made up of fifteen Alumni. Five are elected each year to serve for a term of three years. Officers are elected annually by the Board of Directors.

ALUMNI INTEREST

Alumni interest and participation in the affairs of the corporation and the College has been improving each year. This is especially evident by the interest and participation shown each year by the members of the younger classes.

FIELD HOUSE

In 1959 Rollins Alumni undertook the task of raising funds for building a Field House on the Campus. It was decided that the building should be suitable for all Physical Education and Athletic needs for both men and women students, and in addition provide space for many other college and community affairs.

With a few exceptions, the campaign has been carried on entirely by mail. At present, organizations are being set up in areas where concentration of Rollins Alumni warrants for personal solicitation campaigns.

As of Feb. 28, \$111,699.88 had been contributed or pledged to this all Alumni effort.

This is the first major fund raising campaign that we as Alumni have undertaken for our College. The need for such a building is pressing.

THE ROLLINS ALUMNI RECORD

'34 Eleanor Wilcox Roberts says she has found a job which she really enjoys. "Since November of 1961 I have served as secretary to the staff of *My Weekly Reader*, a school newspaper, which is edited by the Wesleyan Univ. Press in Middletown, Conn. It is a thoroughly interesting position and in a sense, puts me back in a college atmosphere." Their youngest child, Jane, is a sophomore at Kents Hill School in Maine; Betsy is married and living in Columbus, Ohio, and George, after a year at the Forest Ranger School of the Univ. of Fla., is now living at home and working at the International Silver Co. in Wallingford, Conn.

'35 SECRETARY: B. G. Fishback Galey (Mrs. John T.) 401 Shady Ave., C-707, Pittsburgh 6, Pa.

An article by **J. Alan MacWatt** appeared in the August 4, 1961 issue of *SCIENCE*.

A letter came from **Fred Scholfield**, Minister of Music at the First Baptist Church, Gainesville, Fla., for the past 16 years. His son, Fred Scholfield, Jr., Gainesville High School Center, has signed a grant in aid football scholarship with Tennessee. His 20-year-old daughter is a Junior at the Oberlin Conservatory of Music, and is spending this year at the Mozarteum in Salzburg, Austria. "In addition," he writes, "there is a 'fall crop'—a nine year old daughter."

'36 SECRETARY: Helen Jackson Hadley (Mrs. Paul) Box 2550 R.R. 1, Glencoe, Mo.

Marlen Eldredge Neumann (Mrs. Robert) reports that her term on the Los Angeles City Civil Service Commission has expired, but she is now back on the City Board, League of Women Voters of Los Angeles, in charge of Foreign Economic Policy Study and action favoring renewal of reciprocal trade agreements. Husband Robert is Director of UCLA's Institute of International & Foreign Studies, and very busy with manifold activities. Their older son, Ronald, is an Eagle Scout, and younger son, Gregory, is 10.

'37 SECRETARY: Grace Terry Marshall (Mrs. Nelson) University of Rhode Island, Kingston, R. I.
